Love Sustains When Cathay is Around

Love Sustains When Cathay is Around

"Be kind, for everyone you meet is fighting a hard battle." -Plato

As of today, the global pandemic of COVID-19 had been raging the world for more than two years. Countless families are broken; people are disheartened. Now, many have recognized that it is not possible to reach "COVID Zero" but taking vaccination is the most important COVID strategy. Every individual on earth is fighting this battle. Nothing but inclusion and solidarity could help us win the ultimate victory.

To protect ourselves and others, we have complied with COVID measures and changed a lot of habits and routines. Despite the losses and inconveniences that many have encountered, our society still stand firm as a whole to fight against COVID-19. During the course, we have witnessed a lot of people, businesses and groups with capabilities doing whatever they can in fighting for our home. Such spirit has touched a lot of people.

With great power comes great responsibility. Over more than four decades, Cathay Charity Group, its affiliates of Cathay Charity Foundation, Cathay Real Estate Foundation, and Cathay United Bank Foundation, have held on to our mission from day one. Happiness is bringing happiness to others. We consolidate all Cathay people's love and strengths within the Group and make every effort to bring help to every little corner of our society. We hope Cathay's long-lasting deeds will move the heart of people so that more will join our cause in sharing love and prosperity from generation to generation.

Last but not least, we'd like to thank all of our Cathay medical professionals for protecting the health of the general public. They have been bravely guarding against the pandemic on the front line, and they have been doing this for a long time. From the bottom of our heart, we want to say, "Thank you for your selfless dedication and stamina!"

May the world become COVID-free. May the world peace.

A friend in need is a friend indeed

Ever since the pandemic broke out, all nations have received huge impacts on medical services, education and economy. The world's politics also went through a period of turbulence. At the same time, Taiwan seem to be separated from the turmoil in the outside world. How lucky we are! The entire nation, from the governments, medical professionals at the front line to normal people, are with one mind, determined to fight against COVID. We have been through gains and losses, be it tangible or not. No matter what, we are in it together and we cherish every day being blessed by God.

The Taroko Express train derailment on April 2, 2021 shocked the society. In light of the deadly accident, blames, condemnations and requests on accountability swarmed. It's necessary to investigate the root causes, but it's not Cathay's expertise. Therefore, Cathay chose to do what it is good at by initiating emergency relief program immediately. To reduce the impacts of the disaster, Cathay assisted passengers to apply for claims and provided medical aids that were needed urgently. Cathay Group holds the belief of protecting lives and offering happiness as its unwavering value.

With its commitments to locals over decades, Cathay Group has shared weal and woe and formed a co-dependent relationship with this land. Wherever help is needed, you can see Cathay people around. For 2021, although our charity programs were restricted due to the COVID-19, we felt that we couldn't bear the consequences of not providing help to the needy. A summary of our achievements in 2021 is stated as below:

Initiatives for indigenous and new immigrant communities:

To provide support to the indigenous communities and social enterprises, Cathay purchased self-made products from the Down Syndrome Foundation, Yu-Cheng Social Welfare Foundation, and Pingtung Christian Bethany Home. Furthermore, Cathay assisted Taitung's Bunun Cultural and Educational Foundation to promote tourism so as to help them supporting themselves. In terms of the initiatives for new immigrants, Cathay Group continued to cooperate with the Eden Foundation in organizing Leadership Development Camp for 2nd Generation Immigrants. The goal is to provide extracurricular programs for the 2nd generation immigrants so that they will possess more skills to play their potential in full.

Education initiatives:

In 2021, Cathay Charity Group continued to organize Cathay Youth Excellence Scholarship and Dream Come True Program, providing young adults and school children with scholarships to encourage them to play with creativity and pursue their dreams with confidence. The Elevated Tree Program in 2021 supported 6,784 under-privileged children by covering their tuitions. In addition, the Program also extended its focus to the promotion of sports events by sponsoring events and equipment and co-organizing events, hoping to promote sportsmanship and sound development for teenagers. In order to support the education in the remote country, Cathay also sponsored the DFC Teacher Enhancing Program which provided free and innovative teaching resources to teachers.

Social Charity:

Cathay's yearly summer blood donation events were impacted due to the COVID alert. However, Cathay Charity Group still co-organized the blood donation program with the Taiwan Blood Services Foundation and recruited 62,721 bags of blood. It was not only a rare success during the pandemic but also a boost to the general sentiment. Similarly, there was no reason at all to halt the Winter Warmth Program during this difficult time. Cathay's Winter Warmth Program covered 110 elementary schools in the remote country this year. The winter supply was sent to numerous children in need and provided warmth during the winter season. Care to the elders is something essential to the aging society. This year, we established the fourth Cathay's Happy Farm where we carried out "hen-raising" therapy. The elders were able to gain comfort and a sense of achievement from moderate physical labor and others' company.

Promotion of art events:

The pandemic made people worry about the future and the arts can be the best healing therapy. The Emerging Artists Exhibition under the Cathay Art Festival provided a platform for senior high school students and college students. Cathay provided attractive monetary prizes to encourage young people spilling their creativity. The artists of the new generation may have emerged. As a safety measure, Cathay United Art Center set up a virtual gallery on its official website for people to appreciate the winning works at home.

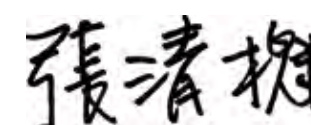

Facing the COVID-19, we might have to sacrifice or compromise to some extent. However, we witnessed the kindness of humanity in the adversity. It is like a star and its light has never disappeared in darkness. When we stand firm in faith, we will see the light. With Cathay being around, we look forward to seeing more beautiful landscape after the storm settles and to greeting a wonderful tomorrow!

The Tenderness of Big Tree

Always around is the Big Tree,
a quiet existence with love at all times.

When Big Tree reaches out wide enough,
a walk under it in summer
becomes less scorching.
It even protects us from rain or haze.
When Big Tree reaches out wide enough,
(Look!)
it becomes a roof
sheltering passersby who are in need.

Highs and lows are part of life.
Keep in mind
Big Tree,
tender and inclusive,
is always around.

Cathay Supports Empowerment against the Pandemic

Cathay and Eden join hands to help 2nd new immigrants chase dreams

Organized by | Cathay Charity Foundation

Cathay's partnership with Eden Social Welfare Foundation to launch Leadership Development Camp has entered the 12th year. This program has always been around for the participants along the way. Participants were assigned to three sub-programs of empowerment by age, empowerment in general, and empowerment by subjects. The programs in 2021 covered 65 participants and 346 person-times of learning.

In the first half of the year, cluster infection broke out in Wanhua District where some participants have been attending to the programs for a long time. The area was locked down and they were

among the group who received the biggest impact. At this time, local communities and organizations leveraged their local resources to help the families under lockdown in maintaining normal functions and reducing the impact from COVID. Deeply touched by this, participants strengthened their affection towards their town; they wanted to give back in the future.

Therefore, when the crisis was resolved, the program directors worked with local organizations developing a series of courses in the subject of "resources coordination under pandemic". Through the sharing of their experiences and

practices, participants learned the central values of community development. Participants also explored the area and visited the "recycled space". At this place where all the objects were made from recycled items, they learned all the resources can be circular and used and these experiences could be references for micro community transformation.

In order to help the 2nd new immigrant youths to explore their future, the Program invites domain experts (such as in medicines, service, creative business, etc.) to host a course. In 2021, Mr. Ching Ho, a carpenter specializing in old wood reviving, and Mr. Kuan-chou Chen, a Lego artist, were invited to share their experiences.

The first session on April 17 was hosted by Mr. Ho. He shared his experiences in training and starting up his own business, and he also taught participants to use the tools and experience carpentry. On Oct. 23, Mr. Chen shared with the participants how he discovered his interest in art and Lego bricks and how he gradually developed his interest into his job. He also led the participants to practice and learn the building structure basics. The two experts' sharing and the hands-on practices helped the participants to consider their future.

The Result Presentation for Leadership Development Camp was held at the end of the year on Dec. 5, 2021 with about 100 attendees. About 100 participants, parents and guests, including the Deputy Chief of Immigration Bureau Wan-yi Lin and Section Chief of Civil Affairs Department of Taipei City, attended the Presentation and witnessed the growth of the 2nd-G immigrants. Participants put up two plays: one was written by themselves, a story that captured the latest element of pandemic; the other one was adapted from Burmese fairy tale "Moon Eclipse". Through their performance, the participants presented their results confidently, which received lots of recognition from the guests and parents.

of COVID-19 we observed these young people's fearlessness against future uncertainties. They bravely faced challenges and pursued their goals with strong actions and flexibilities. Especially, they persistently took on the mission in public welfare and looked to solving social issues. We couldn't help but feel proud of them.

Collaboration with University Clubs Expands Horizon for Children in the Remote Country

Encouraging college students to spread love to others

Organized by | Cathay Charity Foundation

National Taiwan University's students held a camp activity, in which children learned how to team work.

A lot of college servicing clubs canceled or postponed their activities due to COVID-19, so the turnaround reduced sharply if compared with past events. In 2021, Cathay Charity Foundation only got to sponsor 10 clubs from seven schools (including National Taiwan

University) to conduct events in Changhua, Tainan and seven other cities. There were 528 college students receiving sponsorship to serve over 1,000 people.

Growing Seed Instructors to Big Trees

To optimize remote country education through free sharing of innovative teaching resources

Organized by | DFC Taiwan

Co-organized by | Cathay Charity Foundation

Cathay Charity Group, in response to the Sustainable Development Goals (SDGs), has long supported Teach for Taiwan (TFT) to strive for quality education.

This program supported DFC to host six workshops for beginners (one in 2020 and five in 2021) in six cities with 180 attendants. We plan to invite the teachers from the Dream Come True Program, Winter Warmth Program and TFT Program to join so that teachers at the remote area will have barrier-free access to innovative resources. The DFC's 4-step approach presented in the workshops can improve teachers' skills to lead students. They are able to further develop more localized, adaptive, and life-oriented teaching, and design interest-based curriculum.

Cathay Charity Group joins hands with TFT to care for the education of children in remote areas, to nurture talents, and to encourage school students to dare to challenge and pursue various opportunities.

Cathay Supports Education, Helping Students to Go to School

Cathay sponsors sports events and encourages children to play their potential

Organized by | Cathay United Bank Foundation

Nourishing Children to Grow Up

To "grow a big tree from a shoot", Cathay United Bank Foundation has continued its focus in children's right to education. The Elevated Tree Program, a cause that commenced in 2004, aims at supporting underprivileged children who have financial difficulty or encounter major issues in their families and helps paying tuitions and collection fees for them to go to school without worries.

In addition to providing schooling grants, the Elevated Tree Program also extends its focus to sports. In 2021, the Program donated funds to 920 junior high schools and elementary schools located across Miaoli, Chiayi, Pingtung, Yilan and Taitung, benefiting 6,784 people. Moreover, the Program supported 10 sports teams (including the soccer team at Nantou's Shuei Li Elementary School) to play in games, purchase gear and conduct training

sessions. Cathay also sponsored the holding of three games at the Sunrise Village Cup National Junior Football Game through the Program. Over the 18 years, the Elevated Tree Program has never stopped its endeavors. As of today, the Program has donated NT\$ 220 million (US\$ 7,930,786) and supported more than 220,000 under-privileged children to go to school. In 2021, the pandemic caused huge impact to many businesses and lots of under-privileged families suffered from sharply reduced income. Cathay United Bank Foundation's school grants helped ease parents' pressure and children did not have to stop going to school.

On Oct. 13, 2021, Cathay United Bank Foundation held a donation ceremony in which Fengli Elementary School's little players performed their skills on the stage and confidently shared their reflection about playing in the Sunrise Village Cup. It is especially impressive to see sports events boost children's confidence and determination.

Taitung's Fengli Elementary School's soccer players showed their skills at the donation ceremony.

Cathay sponsored Shuei Li Elementary School's soccer team to play in the national tournament. They won the third place in the 4th graders' group.

Support in Sports Moves Children to Embrace Their Future

Quite a few team members who received the Program's support are actually the types of children from indigenous origin, new immigrant families, single parent families, or grandparenting families. Due to the fact that their families normally have tight budget, these children can't afford meals, traffic, accommodation or training that are required to play in a game and they often are forced to give up on these opportunities. Now, the support from Cathay United Bank Foundation solves the problem. The little players and their coaches do not have to raise funds everywhere but can focus on training and move forward to their dreams.

The 2021 Elevated Tree Program helped athletes to achieve great results. All of the players of the table tennis team at Chiamin Elementary School (Hualien) are all Trukus. They were selected to represent Hualien County in the junior level national athletes qualifying game of 2021. The soccer team of Shuei Li Elementary School (Nantou) won the third place at grade four level in the 2021 national elementary school soccer tournament. The archery team of Dong Ao Elementary School (Yilan) is formed by indigenous members. In order to raise fund for training, the Principal held "Flying Fish Festival". The

event not only incorporated tribal culture but also taught the children to learn what it meant by "God helps those who help themselves". With Cathay's support, the archery team got to compete in the County Game and the National Game, taking home seven golds, three silvers and four bronzes in total. On Oct. 18, 2021, Cathay United Bank Foundation held a hockey equipment donation ceremony at Chushan Senior High School in Nantou. The Chairman of Cathay United Bank Foundation Roger M.H. Lee attended the ceremony and presented new equipment so that the coach did not have to spend efforts in fund raising but focus on taking the team to win good results.

Cathay United Bank Foundation has sponsored the holding of Sunrise Village Cup National Junior Soccer Game for five years consecutively, making it an international game that all soccer teams are eager to play in. The children who love soccer can find their possibilities there! The Sunrise Village Cup that has been through 11 years already bears fruit on its own. The young players who used to play in the game now have grown up and achieved great results in Taiwan's soccer. In order to promote Sunrise Village Cup's pioneering spirit and focus on players' career, a Sunrise Village Soccer Performance Award was established to encourage the players who continue to pioneer and achieve outstanding results.

Charity Partners Making Contribution Together

The managed Tien-Tsai Liao and Gan-Ci Liao Memorial Fund also supported Elevated Tree Program by sponsoring the collection fees and lunch fees for the students from Gueishan Elementary School and Taoyuan Elementary School in Taoyuan City. In 2021, the Fund had donated over NT\$ 650,000 (US\$ 23,432), benefiting 236 students.

Sponsoring the 45th National Oil Painting Contest and Exhibition

Supporting Taiwan's art with a full heart

Organized by | Cathay United Bank Foundation

Chairman of Cathay United Bank Foundation Roger M. H. Lee (3rd from right in front roll), Chairman of Oil Art Society Yung-Fu Yang (4th from right in front roll), and Political Deputy Minister of Cultural Affairs Zong-Huan Siao (5th from right in front roll) took group photo with guests at the opening ceremony of the 45th Oil Painting Exhibition.

Last year, the pandemic dealt serious impact. No business could escape, not to mention the art and culture industry. A lot of art events and contests were canceled or postpone. Taiwan's art industry fell into a dark phase. At this difficult time, the Cathay United Bank Foundation continued its support to the Oil Art Society, sponsoring the organization of National Oil Painting Contest and Exhibition with strict COVID measures. By holding this event, Cathay hoped that new artists could emerge through this opportunity. Art has the healing power. Cathay intended to spread warm feelings by real action,

give comfort to people and promote the beauty of arts.

Cathay spares no efforts in supporting local arts

The 45th Oil Painting Exhibition opened on Aug. 14, 2021 at the Bo-ai Gallery of the Dr. Sun Yat-sen Memorial Hall and the award presentation ceremony took place at the same time. The event followed strict COVID prevention measures: real-name registration, entry control, temperature taking, and auto spray spout for sterilization.

Led by the new Chairman of Oil Art Society Yung-Fu Yang, all of the displaying artists and award winners attended the event. In the opening ceremony, the Chairman of Cathay United Bank Foundation Roger M. H. Lee said, "This year is the fourth year for the Cathay United Bank Foundation to provide exclusive sponsorship to the Oil Art Society. I wish our strong relationship last long and the Oil Art Society prosper. More and more great artists can join this important event for Taiwan's art."

There were 83 competing works in this year and they were in all kinds of subjects, including COVID related. The Gold Award winner featured in the Earth and environmentalism. The painting expressed the ecological issue with strokes in gray scale with solid skills and deep reflection.

The Oil Art Society was established in 1974. It is an important art group with the longest years. Its members include artists from old to young generations. A lot of them are renowned figures in the academics and in the industry. The Oil Art Society regularly holds National Oil Painting Contest and Exposition in order to promote oil art and facilitate its development to be in line with the times. The other objective for the contest is to discover more art talents. In addition to the sponsorship to the exposition, Cathay United Bank Foundation also provided premium prize money as an encouragement to those outstanding artists for Taiwan's oil art. Artists showed their works at the same platform, exchanged ideas and passed on experiences, which was especially meaningful for Taiwan's oil art development.

By connecting art and charity, Cathay United Bank Foundation facilitates the circulation of kindness

Cathay United Bank Foundation believes in humanistic care and has devoted to charity events and art promotion for a long time. In addition, the Foundation also puts focus on promoting rights to education. The Elevated Tree Program that sponsors school fees for underprivileged children has been lasting for 17 years. Furthermore, the affiliated Cathay United Art Center regularly holds art exhibitions and lectures. Since its establishment in 2000, Cathay United Art Center has worked with several members of Oil Art Society to launch expositions and collected many of their paintings. The Art Center aims at supporting local art and promoting art-loving atmosphere. It will continue to support artists and discover more new talents. In recent years, the Art Center has initiated the annual Charitable Painting Exhibition under the Elevated Tree Program since 2019, hoping to serve as a platform to spread people's kindness in addition to showing art works. The Exhibition features amateur artists and the proceedings would be donated for charity. This circulation of kindness opens up more possibility for charity and art. "Happiness is bringing happiness to others". Going forward, we will continue to reach out to different communities, combine arts and charity, and connect the kindness from all walks of life, making our best efforts for a better society.

Emerging Artists Exhibition

Organized by | Cathay United Bank Foundation Affiliate Art Center

The 20th Emerging Artists Exhibition

The Emerging Artists Exhibition as part of Cathay Art Festival that has been held for 20 consecutive years is particularly launched for youth artists at senior high school and university levels. It is an event for young artists to announce their unique and creative oil art and water colors works.

The 2020 Cathay Art Festival – Emerging Artists Exhibition started to call for entries in August and entered into jury deliberation in November. The 2020 Exhibition received more than 200 entries, much more than before. The total amount of prize money was NT\$ 320,000 (US\$ 11,536) and the Gold Winners for College Group and Senior High School Group won NT\$ 60,000 (US\$ 2,163) and NT\$ 50,000 (US\$ 1,802) respectively. The attractive prizes had encouraged competitive contestants.

From the interview with winners, we learned that each winner regarded highly of the honor of being selected into the Emerging Artists Exhibition. A lot of non-art students took much

efforts to fight for an opportunity to show their works. Serving as one of the judges in the contest, the Chairman of Tai-Yang Art Association praised that the Emerging Artists Exhibition attracts high quality works each year, and judges need to deliberate rather prudently to select outstanding works. The Emerging Artists Exhibition is an encouragement and driving force for the next generation's prospective artists.

Furthermore, the 2021 Emerging Artists Exhibition also held virtual gallery on its official website for more people to appreciate. The participating works were exhibited at Cathay United Art Center starting from January, 2021, for people to know more about these young artists of Taiwan's next generation.

The Secret Land for One's Heart (Jan. 16 - Feb. 20)

Li-Zhu Ou's Solo Exhibition

Organized by | Cathay United Bank Foundation Affiliate Art Center

Featuring artist Li-Zhu Ou (central) took a photo with Chairman of Cathay United Bank Foundation Roger M. H. Lee (3rd from left) and friends.

Li-Zhu Ou comes from Penghu. She grew up in Sand Port Village of Huhsi Township where lots of coral stoned houses sit facing the beach with mountains behind. The magnificent landscape and infinite sea horizon nourished her talent and gave her unlimited inspirations to create. Li-Zhu Ou documents her hometown and its spirit through painting. She portrays the unique beauty of Penghu's scenery, local farmers working in the field, and the beautiful scenes she collected during her travel. Through painting, Ou expresses her feeling, her observation in details and her perception to the natural beauty. Her paintings activate the dialogue and echo with viewers.

Ou's paint brushes turn the most wonderful impression of Penghu into paintings that strike viewers' chord. In a journey that commenced coincidentally due to her intuitive response to beauty, Ou opened up her own horizon towards life, and she took the viewers to appreciate the beautiful scenes where they have never been or noticed. It was

an opportunity for the viewers to escape from the daily routines and simply experience a serene elegance and pleasure.

We all have a secret land in our heart, but we just forget to care and cultivate due to other interruptions. Li-Zhu Ou paints the beautiful scenery and unique culture of her hometown Penghu and the scenes she witnessed with her own eyes during her travel. She wants to present the simple and pure nature and find the calling from the simple living.

The Azure Reflection (Apr. 10 - May 8)

Yu-Zhen Guo's Exhibition of Justice

Organized by | Cathay United Bank Foundation Affiliate Art Center

Featuring artist Yu-Zhen Guo (3rd from left) took a photo with Chairman of Oil Art Society Yong-Fu Yang (1st from left) and friends.

Yu-Zhen Guo is a judge at the High Court. She spends time outside of work learning from Normal University's art professors. She creates a unique kind of art by incorporating a diverse set of skills and her reflections on social issues that her job brings to her. This exhibition consists of two themes: Azure Reflection and Green Romance. The Azure Reflection tells her reflections on the various issues related to her job and the judicial

system, and Green Romance reveals her thoughts and feedback to the beautiful things surrounded in her life.

Guo uses painting tools to tell stories about the justice in everyday life in a profound way; justice turned into visual images give strong impact to the public, which is not comparable by words. These images combine a diverse variety of skills,

media, forms and colors would, sending out strong and explosive emotions and enabling a new kind of art style and horizon. Viewers would feel the impact and reflect on our society. This theme that tells so many profound stories can be one of its kind. Guo exquisitely dealt with these difficult issues through painting. She is believed to have a lot more to offer in art.

On the other hand, she returns to the pure and intuitive aesthetics in her Green Romance series. Guo freely spilled out her love and pursuit of nature onto the canvas. On her canvas, life can be art and art can be life. The plain happiness and the beauty of life is just like poetry. Daily triviality or any glimpse captured in front of her can be the subjects for her to create.

Artist Yu-Zhen Guo delivered the opening speech.

The delegation of Taiwan Chapter of the IAWJ visited the exhibition and took a group photo with artist Yu-Zhen Guo (third from left in the front row).

Cathay held charity bazaars to raise funds for underprivileged children

Organized by | Cathay United Bank Foundation Affiliate Art Center

The 2022 art calendar is entitled "In Search of the Dazzling Colors", featuring six artists who love the earth: Hsien-Fa Su, Yung-Fu Yang, Fan-Jung Yeh, Rong Lin, Zheng-Lang Li and Zheng-Bo Lin. Each piece of works presents the affluent nature. The graphic design also echoes the theme with many bright colors and layers.

The stimulation to senses associates one with life, serving just like an invitation to all in search of the colors and the true nice things of the world. At the same time, the Art Center held charity sale of the Art Albums, coasters and other products. The proceeds from the sales were donated to support underprivileged children's education.

Cathay Life Insurance's President Shan-Chi Liu, senior managers and volunteers attended the Winter Warmth Event held for the children from five schools in Jianshi, Hsinchu County and took a group photo with all the students and teachers.

In order to show their support to the Winter Warmth event, Cathay's senior executives, including the Chairman of Cathay United Bank Foundation Roger M.H. Lee, Chairman of Cathay Securities Investment Trust Jeff Chang, and President of Cathay Life Insurance Shan-Chi Liu, came to the remote country elementary schools in Cathay's yellow vest during the Christmas and Lunar New Year season, presenting the gifts to the children by themselves. We are proudly to say that Cathay's commitment to charity is so solid

that a lot of private businesses provided support voluntarily. People awaited expectantly to see children crack their smile for winter full of warmth.

Cathay remained its commitment amidst the merciless pandemic. On Dec. 16, the President of Cathay Life Insurance Shan-Chi Liu led the Group's senior managers and volunteers to the Jianshi Township, Hsinchu County. At the Jianshi sports arena, Cathay held the Christmas Winter Warmth event for the 300 children from five

elementary schools (Hsinle, Chiahxing, Jianshi, Meihua, and Chinping).

Cathay Charity Group has maintained committed to the remote country and held the Winter Warmth Program for 20 years. Holding on to its corporate social responsibility, Cathay's volunteers, with their COVID measures perfected, headed 110 remote country elementary schools across 39 townships in 15 cities (including Wanli in New Taipei City, Jianshi in Hsinchu, Laiyi in Pingtung, Baisha in Penhu and Taimali in Taitung) just for sending gifts of warmth to over 9,000 children. Cathay employees' donation was turned into gifts of love and spread to corners of our society.

"Cathay's big tree has always been around", according to the President of Cathay Life Insurance Shan-Chi Liu. Cathay's commitment to children has never changed. Through the Winter Warmth Program, we keep sending love to the remote country and allow the circulation of love and kindness will extend. This kindness may grow into a big tree too within these children. We look forward to seeing them grow up and return to the society so that we can build a better tomorrow.

emergency, the Chuan-Kaohsiang team worked with Kaohsiung Blood Donation Center to hold a high-intensity donation event with the goal of raising blood for the medical care at the COVID front line or emergency. This event will be a long-term charity cause at our team", said the captain of sub-team Ming-Ho Tsai.

What is worth of mention is that quite a few Cathay volunteers made their first donation at Cathay's events. They said they felt nervous but the nurses were treating them gently and patiently. Their fear disappeared and they were willing to make donations afterwards. Furthermore, Cathay's volunteers also invited their friends, families and clients for this event to reach more people. They also preached about the benefits of blood donation, hoping that more people would become frequent donors going forward.

Fearless at Old Age, Seniors Enjoy Pleasures of Chasing Dream

Cathay shapes the happiness for the seniors and keeps them assured and active

Organized by | Cathay Charity Foundation

Working with Hen and Traveler, Cathay donated chicken coop to the Eden Day Care Center at Changbin Township, Taitung.

Hen-therapy is adopted at Changbin Happy Farm in Taitung.

As Taiwan's population of seniors has grown to 3.8 million, a lot of senior people now are facing issues of dementia, living alone, and reduced mobility. Changbin is a remote area in Taitung. It lacks of resources and young people. Many seniors live alone at their homes. They can suffer from degeneration physically and depression mentally.

Starting from 2019, Cathay Charity Foundation worked with the Eden Foundation to launch Cathay Happy Farm program to help the seniors at local communities living a healthy life. In 2021, Cathay continued to provide subsidy to Eden for conducting "Hen-therapy" in this cause. A donation ceremony was held, where the attendants shared fun facts about hen raising.

The Hen-therapy Program invited the founder

of "Hen and Traveler" Huang-Ching Yang as the instructor. She taught the social workers, home caregivers, nurses, volunteers and seniors to raise chicken from the scratch: coop building, chicken raising, chicken holding. She also shared the benefits of living with chicken and hen's gentle power. They even named every chicken. Currently they have five "chicken doctors" at the Happy Farm. The chicken has become important partners at the daycare center for the seniors.

The essence of Hen-therapy is to channel in the seniors' life experiences and their emotional connection with animals. Seniors can have modest labor to maintain physical well-functioning and are able to find a focus in life. Most importantly, they have company. Their loneliness can be reduced. These "chicken doctors" will also produce eggs which can be consumed by the seniors at the daycare center.

Cathay's anti-fraud team helps protect seniors' assets

Cathay Life Insurance's volunteers worked jointly with local police stations and village/neighborhood chiefs throughout Taiwan to launch anti-fraud program. Cathay's volunteers shared the knowledge about fraudulent practices. They played a board game to teach the seniors about the fraudulent tactics and helped protect their savings. Cathay volunteers also taught the seniors that they should either seek help from friends or families or discuss with neighbors when they

received fraudulent calls so as to reduce the risk of losing their money. Currently a lot of seniors live alone. They have no one to seek help when receiving fraudulent calls and may fall into trap. Cathay volunteers taught seniors how to protect themselves through the playing of board game. Cathay volunteers held 72 anti-fraudulent events in 2021, servicing nearly 2000 seniors. A Cathay volunteer praised that the board game feels very close to the real situation and the script from the game can be used to dissuade people from falling to the trap. A colleague from Cathay Customer Service shared their experiences: we would put ourselves into shoes when receiving a claim application from a senior client. We would raise questions and observe how they react. If we feel something is not right, we would proactively contact their children to confirm the situation. This is what we should do.

Cathay worked with Taichung Girls' Senior High School's retired teachers to initiate a dream project for seniors

Cathay Charity Foundation worked with the TCGS Cultural Foundation initiating Teacher Once More, a dream project for TCGS's retired teachers at Hotel National in Taichung. The event invited

20 teachers at age 70 in average who had retired more than 10 years and the alumni who had graduated more than 20 years for a teacher and student reunion.

According to the Director-General of Cathay Charity Foundation Mau-Chih Chung, Cathay initiated the Happy Farm project in 2019 to help the seniors in communities, and the Foundation particularly worked with the TCGS Cultural Foundation to initiate the "Seniors' Dream Project" for retired teachers. Cathay would like to gradually spread the power of dream to different generations.

Teacher Once More was the first round of the Seniors' Dream Project. This event realized the dream for TCGS's teachers to see their old colleagues and students again. Happiness is bringing happiness to others. Cathay pulled off a successful event with this long-term concept, leaving sweet memories for all the attending teachers and students.

Cathay Happy Farm's Hen-therapy Program aims at bringing more resources to the seniors living in the remote country so that they can live a fabulous with dignity. Anti-fraud board games were meant to help the seniors to protect their life savings. The Seniors' Dream Project allow retired people to share about their life in the school and at workplace with others. They can recollect the stories from the past and interact with other retirees. Cathay Charity Foundation believes in the spirit of Spreading Happiness and Hope and will continue to support diverse and innovative causes, providing the activities and venues for seniors to enjoy a happy life. This will become an important need as Taiwan has become an aging society.

Organized by | Cathay Charity Foundation

During the Leve 3 Alert, many marginalized households were desperate in need of help. Cathay Charity Foundation cooperated with Andrew Charity Association's Food Bank to donate 700 boxes of food. Each box was worth of NT\$1000, containing rice, oil, noodles, instant noodles, long-life milk and other staples. It was enough for a household at the marginalized line

to maintain their life temporarily. Furthermore, Cathay also assigned volunteers to deliver food boxes to unemployed people, seniors living alone, and the under-privileged households under the coordination of New Taipei City, Hualien and Taitung's social bureaus for them to go through the difficult time.

Cathay General Hospital and Its Staff Work Hard Against COVID in One Accord to Fulfill Its Social Responsibility

Cathay General Hospital's entire staff were mobilized to fight against COVID.

For the past two years, the COVID-19 pandemic has raged the entire world. All of the staff at Cathay General Hospital guarded at the front line with various preventive measures. Cathay Hospital set up large vaccination stations to protect the health of the communities. In regard of its international causes, Cathay wasn't able to send delegates abroad for medical aid missions, but still provided assistance through remote sessions and donation of resources.

Large vaccination stations for COVID protection

Local infections broke out since May 2021 and the National Alert was increased to Level 3. In

response to the measures imposed by the Central Epidemic Command Center, Cathay General Hospital carried out effective cross-function integration, including increasing negative pressure isolation wards, establishing dedicated intensive care unit, setting up positive pressure operating room with a negative pressure anteroom, setting up outdoor screening stations, launching outdoor dispensing of refillable prescription and remote consultation. Cathay also allocated manpower to support quarantine hotels in Taipei. All of Cathay's staff spared no efforts in this battle against COVID.

Meanwhile, in coordination with the launch of the national vaccination program, Cathay Hospital

mobilized all of their health care professionals and administrative staff to support Taipei City Government in the set-up of large vaccination stations. Lots of thoughts and efforts were made to perfect the details, from venue selection, flow line design, to IT and internet installation. The stations also adopted accessible design. The staff made every effort to lift all electric cords and cables above the ground and hang them in the air, intending to create a friendly environment for seniors and physically challenged people. All of the processes were digitalized to cut short the wait time. These processes included TOCC (Travel History, Occupation, Contact, Cluster) verification and appointment qualification, QR Code for online health evaluation questionnaire for expedited consultation. In addition, the stations imposed smart departure control to ensure each person who received vaccinations would stay for 15 minutes for observation before leaving the venue. The onsite personnel received lots of positive comments and recognition because of their caring guidance and help. At this intense moment when the pandemic made people busy and nervous, a simple word of thanks and encouragement could convey much warmth and recognition for our staff. As of the end of 2021, Cathay General Hospital had provided more than 100 sessions of vaccination, vaccinated to more than 53,000 people and received 97.7% of satisfaction rate with an average score of 4.9 (with 5 as full score) for Cathay's efficient and safe vaccination service. The digitalized vaccination station at Xingan Elementary School received the National Healthcare Quality Award in Smart Medical Solutions by the Joint Commission of Taiwan.

Keeping company with the hospitalized COVID patients, Cathay builds strong doctor-patient relationship

Many people were forced to leave their homes to stay in the wards when they became confirmed cases. They felt alone and might have developed mental issues, because they couldn't see their families or friends and they also had a lot of questions. At this time, the medical staff were the only contact they could have. In addition to the best healthcare, Cathay General Hospital combined resources from public and private sectors, such as social workers, to provide holistic care for people who could gain health again and return to their neighborhoods. It took a lot of time and efforts to put on and put off the protective gear. Cathay's medical staff made the best use of each visit by taking time to listen to the patients' concerns and their joy when they recovered. Virtual meetings through digital devices were provided for patients to see their families, and even used for terminal situations. These measures might be more time-consuming, but Cathay aimed at providing the comfort to each restless soul. At the same time, Cathay was grateful for the general public and medical workers for joining the course together and donating lots of resources, food and drinks for those who were fighting at the front line. Each simple word of thanks and encouragement spirited up our medical team and supported them to keep doing what they were doing.

Cathay's medical staff put on the heavy protective gear to take care of patients carefully, and build strong relationships with patients.

Virtual meetings sustained Cathay's international causes

- Continuing the Health Information Management Efficiency Enhancement Project in Paraguay

Over the years, Cathay General Hospital has been supporting Paraguay to enhance their health information management. Such deed had not only received recognition from the Paraguayan president and its Ministry of Health, but also become a milestone of digitalized medical service in Latin America. The excellent results helped Cathay wining its 4th Friend of Foreign Service Medal granted by the Ministry of Foreign Affairs on Feb. 19, 2022.

Since 2014, Cathay General Hospital, under the partnership with the International Cooperation and Development Fund, has started conducting the Health Information Management Efficiency

Enhancement Project in Paraguay, helping Paraguay's hospitals establish medical information integrated system. Currently, this IT system has been introduced to 72 local medical institutions spanning 13 provinces. Local medical professionals using this system for data management and consultation were able to increase the number of patients they served by two times each month and the waiting time was largely reduced to 0.9 hours from 2.5 hours. The Project is expected to be expanded nationwide so that the medical service for Paraguayan people will be enhanced. Paraguay's success story can even be duplicated and applied to other Central and Southern American countries in the future. The enhanced medical quality and services by this Project received raves and recognition from the Paraguayan Government. The president of Paraguay published a film about this Project in his Twitter and Facebook accounts to share this

achievement with the public.

- Giving long-term support to Fiji to improve local medical quality

Cathay's medical missions to Fiji were called off in 2021 due to the pandemic. It wasn't convenient to provide on-site medical help. Cathay General Hospital conducted virtual meetings to help the other end establishing remote medical training and virtual medical system. By giving online demonstration of surgery, remote consultation

and case study, Cathay continued to provide education and exchanges with local medical staff for them to better their skills. In addition, Cathay donated medical supply for COVID-19 prevention, treatment and prevention for chronic diseases based on their needs. Cathay also donated instrument set for laparoscopy, mobile surgical lights, and surgical beds to help boost local medical quality as well as to serve as preparation for the surgeries by the medical missions. Furthermore, Cathay worked with Taiwan's Representative Office in Fiji to provide health education in COVID-19 prevention and chronic diseases by giving out personal hygiene products and pamphlets. The event was co-organized by the Yat Sen Primary School, Health Centers and Labasa Hospital to benefit the local prevention
